

Construction Services

Services of Traffic Flow Ltd

- **Safe delivery** of Traffic Management schemes
- **Safety first**, we hold internal monthly safety meetings, all operatives receive regular safety briefings and wear full body hi-viz and gloves at all times, along with any site specific PPE requirements
- **Customer focused** - regular customer feedback requested to assist in improving the service provided
- **Flexibility** - Two types of service available, Civils focused or TM focused, dependant on type of contract
- **In house design** service, designs available at short notice
- Supply of Qualified **TSCO's**, In house or independent if required
- **Liaison with local authorities**, police and maintaining agents etc
- **Streetworks/LANTRA trained personnel**, programme of training for all to be trained to National Highways Sector Scheme 12D
- Share our **Multi Tasking operatives** with site, operatives will carry out other attendant site tasks when no Traffic Management works are required
- **Integration** with the site team, operatives work along side other direct personnel as part of the site team
- **Supply of Traffic Management Materials** for hire or to purchase at competitive rates
- All yellow on black information signs can be turned round quickly thanks to our in house sign printing facility
- **Competitive rates** on scheme sign boards and other client requested special signage
- All **traffic management vehicles** used are as per the recommendations and guidelines laid out in the new **Chapter 8**
- High quality **site specific method statements and risk assessments** provided for all schemes
- **24hr Call out** available if required:
